**ABSTRACT**

Method for feeding fasteners to a fastening tool that can be moved by a programmable handling device and on which is mounted a magazine for accommodating at least one fastener. The method comprises: moving the magazine to a filling station, wherein the filling station has an always continuously open tube section with an outlet opening; orienting the magazine with respect to the outlet opening; opening an air seal of the magazine; and conveying at least one fastener to the tube section in such a manner that the fastener travels through the tube section and the outlet opening to reach the magazine.
